

NARVA AMERICAN SPACE
Monthly Report – June 2019

New and most popular programs:

Tie-Dye Party

We closed another successful Narva American Space season with a fun Tie-Dye event. [The Fulbright Program](#) English Teaching Assistants Madeline and Lauren taught both children and adults to make colorful summer shirts with simple clothing dye.

Conversation Club

Themes: Free discussion, Food, Summer Camp.

Conversation Club is led by Madeline Williamson, our English Teaching Assistant. The club was especially prepared for children from a language camp.

3-D Master Classes

This is a continuation of a master class series on 3D printing, laser cutting, and seeking innovative approaches for introducing new ideas in the MakerLab innovation laboratory at Narva American Space.

Ambassadors Horn Ensemble Concert

The Ambassadors Horn ensemble performed a short 20-minute concert in the library lobby for visitors. This is a quintet of musicians from the U.S. Air Force Europe and Africa playing brass wind instruments (3 saxophones (baritone, tenor and alto), as well as trumpet and trombone).

American Space Tour

The tours of the American Space are conducted in Russian, English, or Estonian, depending on the guests' preference. During the tour, we talk about the space mission, activities, and demonstrate 3D printer and laser cutter items made during the workshops.
