

Hi, everyone! My name is Taylor, and I was raised in New York in the United States. I recently graduated from Stony Brook University in the state of New York where I had a double major in Political Science and Philosophy and a double minor in United States History and Professional Writing.

In my free time, I like to cook, garden, read. I currently teach English in schools within Narva and in the Narva American Space and I enjoy it very much.

I am so excited to be in Narva and I look forward to having fun conversations and teaching English through our Conversation Club here at the American Space!
